- V. David DeGruttola reported on a logging crew that began work in January on this area of the RCF. Over 306 Cords have been cut though this report. Cutting should be good though the end of February, then weather will dictate if it's possible to continue this year. The current yield is approximately 70% pulp and 30% saw logs. Ray Berthiaume is the new Coos County Forester, and made an effort to introduce himself to David. He's interested in having high school students tour the RCF as part of their program. An estimate of \$1,590 was presented for softwood seed to be spread on the RCF. This is a mixture of Balsam Fir, Red Spruce and Hemlock. Some of the property lines had been walked and marked, but there are a few areas Jefferson off Route 2 that might need to be surveyed to confirm the actual locations of pins. David spoke to Clint Savage of the NH Trails department about some changes and improvements to the existing snowmobile trail on the RCF.
